No. 2784 of 1913.

From

LIEUT.-COLONEL J. JACKSON, M.B., I. M. S.,
Inspector-General of Prisons,
Bombay Presidency;

To

THE SECRETARY TO GOVERNMENT,
Judicial Department,
Bombay.

INSPECTOR-GENERAL OF PRISONS' OFFICE:
Poona, 27th March 1913.

Sir,

I have the honour to submit the Annual Administration Report together with the usual statistical tables on the Prisons and Jails in the Bombay Presidency (including the Province of Sind and the Settlement of Aden) for the year 1912. The office of the Inspector-General of Prisons was held by me during the year under report.

JUDICIAL.

2. The number of Central, District, Special and Extramural Prisons has undergone no change during the year under report. Statistics of all the Third Class Subsidiary Jails have been grouped together with those of lock-ups as was done in the previous years. The First Class Subsidiary Jail at Násik and the Second Class Subsidiary Jails at Ahmednagar and Sátára were abolished on 1st April 1912 under orders of Government contained in Judicial Department Resolution No. 397, dated 16th January 1912. The Second Class Subsidiary Jails at Surat and Godhra still continue pending the construction of a barrack at the Ahmedabad Central Prison.

3. From the general summary preceding the statements in the appendices to this report, it will be seen that the total population of all classes of prisoners confined in the Prisons, Subsidiary Jails, Lock-ups and Civil Jails has been 109,459 against 100,791, an increase of 8,668. The daily average population has been 10,899 showing an increase of 768 over the figures of the previous year.

4. The following table, which compares the figures of the past two years, refers to the admission of convicts into Prisons and First and Second Class Subsidiary Jails only :—

Statement No. I—Number and disposal of convicts.

		1911.			1912.		
		Males.	Females.	Totl	Males.	Females.	Total.
Number remaining on last day of previous year.	Prisons	7,896	264	8,160	7,384	157	7,541
	Jails	183	3	186	159	6	165
Imprisoned during the year.	Prisons	15,226	879	16,105	17,828	1,148	18,976
	Jails	1,307	118	1,425	1,08	122	1,210
Total ...	Prisons	23,122	1,143	24,265	25,212	1,305	26,517
	Jails	1,490	12	1,611	1,247	128	1,375
Grand Total ...		24,612	1,264	25,876	26,459	1,433	27,892
Daily average strength ...		8,170	273	8,443	8,625	280	8,905

5. There has been an increase in the number of convicts admitted. His Majesty's Common Prison (781), the Central Prisons of Yerávda (318), Ahmedabad (236), and Hyderabad (451), and the Prisons of Dhulia (193), Bijápur (232), Dhárwár (288), Kárwár (36), Thána (40), Rájkot (3) and Shikárpur (325) show an increase; while the Prisons of Ratnágiri, Karáchi, Sukkur, Aden and His Majesty's House of Correction show a decline.

The increase in the Ahmedabad Central Prison and in the Prisons of Dhulia, Bijápur, Dhárwár and Shikárpur is mainly due to the prevailing scarcity in those districts and admissions under section 110, Criminal Procedure Code. In His Majesty's Common Prison no special reason can be assigned for the increase in admissions beyond the prosecution of beggars by the Police and under the Municipal Act for possessing Cocaine without a license. The total admissions to this Prison were 5,658; of these the heading "under all other offences" accounts for 2,466; this latter figure includes Cocaine 914, begging 534, gaming 121, soliciting 153, street obstruction 40—a total of 1,867. In the Prisons of Yerávda, Thána and the Deccan Extramural Prison, the increase is mainly due to the abolition of the Sátára, Násik and Ahmednagar Subsidiary Jails. The increase in the Hyderabad Central Prison is due to the fact that the Prison was open to admissions throughout the year. The increase in the Kárwár and Rájkot Prisons is insignificant and requires no explanation.

6. With regard to the disposal of convicts, there is an increase under the head "Transferred to other Jails." This is due to large batches of prisoners having been transferred from the Common Prison, Yerávda, Bijápur, Dhárwár and Thána to the Deccan Convict Gang and from Hyderabad and Sukkur to the Sind Convict Gang and other Jails in the Presidency to relieve overcrowding in those Prisons. The headings "Released on appeal", "Released on expiry of sentence" and "Released by order of Government on account of sickness" show an increase, while the heading "Released under Remission rules" and by order of Government on other grounds show a decline which is due to releases of long term prisoners on Delhi Darbár day in 1911. Of the 41 released by order of Government, 17 were released on the ground of sickness; 2 each from Common Prison, Dhulia, Thána, Ahmedabad and Sind Convict Gang and one each from His Majesty's House of Correction, Yerávda, Bijápur, Karáchi, Rájkot, Hyderabad and Shikárpur. Ten ex-Military convicts were sent to England from His Majesty's House of Correction. Eight unfit life transports were released—4 from Yerávda, 2 from Thána, 1 from Dhulia and 1 from Godhra. Two prisoners from Dhulia and 4 Chhapparbands from the Bijápur Prison were released on other grounds. 100 life prisoners were deported to the Andamans *vid* Madras and 25 transports *vid* Alipore against 100 in the year previous. The heading "Transferred to Lunatic Asylum" shows an increase of 3 over the figures for the year previous. The heading "Escaped" shows a decline of 3, while the heading "Executed" shows an increase of 15. The number of deaths shows a decrease of one, which will be commented on later. There were no state prisoners in confinement at the close of the year.

Statement No. II—Religion, age, education and previous occupation of convicts.

7. There is an increase under the sub-heads "Native Christians", "Mahomedans" and "Hindus" and "Sikhs" while all other sub-heads show a decline. The number of juveniles under 15 years of age admitted during the year under report was 46 against 37 in the year previous or an increase of 9. Out of 36 males and 10 females convicted, 11 males and 5 females were sentenced to one month and under, 20 males and 3 females to one month and not exceeding six months and 5 males and 2 females to over six months. Out of 46 admitted 7 males and one female had previous convictions. Of the total number of juveniles admitted, 4 were sent to the Reformatory School by the District Magistrates on reference by Prison authorities, thus leaving 42 juveniles who underwent imprisonment. Out of this number of 42, three were considered by the District Magistrate as unsuitable cases for the Reformatory; for five there

was no accommodation available in the Reformatory; in the case of two the District Magistrate considered the prisoners were over 15 years of age; one was sentenced to 6 months' rigorous imprisonment under section 109 and so was not eligible for transfer to the Reformatory; in Aden one was sentenced for returning after deportation and one for bringing false charge with intent to injure.

Of the remaining 29 the following were in my opinion sentences that can only do harm in every way :—

Name.	Sex.	Age.	Sentence.	Offence.	Previous Conviction.	Receiving Prison.
C. C. ...	Male ...	15	Rs. 10 or 8 days' rigorous imprisonment.	Begging ...	*Nil* ...	Common Prison.
B. H. ...	Male ...	12	Rs. 20 or 10 days' rigorous imprisonment.	Illegal possession of Cocaine.	„ ...	Do.
K. S. ...	Male ...	15	Rs. 2 or 4 days' rigorous imprisonment.	Begging ...	„ ...	Do.
K. A. R. ...	Male ...	15	Rs. 2 or 48 hours' rigorous imprisonment.	Disorderly behaviour.	„ ...	Do.
S. L. ...	Female ...	14	One week's rigorous imprisonment.	Theft ...	„ ...	Do.
D. D. ...	Male ...	13	Rs. 10 or 15 days' rigorous imprisonment.	Gambling ...	„ ...	Rájkot.
B. M. ...	Male ...	9	Rs. 25 or 6 days' rigorous imprisonment.	Do. ...	„ ...	Karáchi.
D. T. ...	Female ...	13	1 month ...	Theft. ...	„ ...	Godhra.
C. K. ...	Male ...	14	8 days' rigorous imprisonment.	Do. ...	„ ...	Wadhwán.
B. N. ...	Male ...	13	15 days' rigorous imprisonment.	Do. ...	„ ...	Do
C. A. ...	Female ...	13	Rs. 8 or 6 days' rigorous imprisonment.	Do. ...	„ ...	Do.

The sub-head "Above 60" under females show a decrease while all other sub-heads show an increase. Under the head "Education" the sub-head "Able to read and write" under females show a decrease while all other sub-heads show an increase. With the exception of sub-head "Persons employed in Mechanical Arts, etc.," all other sub-heads show an increase over the figures for the year previous. The percentage of the total number admitted to free population according to the Census of 1911 is 0·149 during the year under report.

Statement No. III—Nature and length of sentence.

8. With the exception of the sub-head "Sentenced to transportation" there is an increase under each sub-head. There were 1,995 prisoners sentenced to simple imprisonment, 17,345 sentenced to rigorous imprisonment, and 14 sentenced to rigorous imprisonment with whipping as compared with 2,103, 15,087 and 23 in the year previous. The number of prisoners sentenced to rigorous imprisonment with solitary confinement was 332 as compared with 317 in 1911, 344 in 1910 and 359 in 1909. Proper accommodation for carrying out sentences of solitary confinement is still needed in many Jails and some of the sentences could not be carried out for lack of solitary cells. 6,454 prisoners were sentenced to "Not exceeding one month" as compared with 5,960 in 1911; of these 3,766 were admitted to the Common Prison, Bombay, against 3,453 in 1911. We must apparently look forward to a steady increase, especially in Bombay, of these short sentences which are to be deplored in every respect. I subjoin some sentences awarded in Bombay during the past year :—

Name.	Sex.	Age.	Crime.	Sentence.	Previous Conviction.
K. S. ...	Male ...	23	Theft ...	1 day's simple imprisonment and Rs. 5 or 7 days' rigorous imprisonment.	*Nil.*
N. N. ...	Male ...	20	Do. ...	1 day's simple imprisonment and Rs. 3 or 3 days' simple imprisonment.	*Nil.*
N. N. ...	Male ...	23	Do. ...	1 day's simple imprisonment and Rs. 15 or 15 days' simple imprisonment.	8 with 3 sentences of a year.
D. K. ...	Male ...	30	Do. ...	1 day's simple imprisonment and Rs. 35 or 1 month's rigorous imprisonment.	*Nil.*
S. B. ...	Male ...	18	Criminal breach of trust.	1 day's simple imprisonment and Rs. 15 or 3 days.	*Nil.*
B. R. ...	Male ...	30	Theft ...	1 day's simple imprisonment and Rs. 30 or 1 month's simple imprisonment.	*Nil.*
M. Y. ...	Male ...	20	Do. ...	1 day's simple imprisonment or Rs. 5 or 5 days.	.....
S. A. ...	Male ...	18	Do. ...	1 day's simple imprisonment or Rs. 5 or 1 week's rigorous imprisonment.	.....

In addition to many similar sentences to the above we find such sentences as Rs. 15 or 15 days' simple imprisonment and Rs. 15 or 7 days' simple imprisonment for illegal possession of Cocaine; for gaming Rs. 5 or 7 days' rigorous imprisonment; in all instances non-habituals. I do not quite know what is expected from these sentences. It would be infinitely better if these people were not sent to prison but made to pay up their fines, which they never do. Rigorous imprisonment under 14 days or simple imprisonment of any period will never induce them to part willingly with a rupee.

Statement No. IV—Re-convictions.

9. The statement noted in the margin deals with the reconvicted prisoners. The number of habituals identified by Jail Officials has been 106 against 173 in the year previous. 2,184 were classified as habituals out of a total of 3,681 previously convicted prisoners. This statement does not include 1,406 prisoners sentenced under Chapter VIII of the Criminal Procedure Code but who, under the orders of Government, are always treated as habituals. Of this number 839 were sentenced in Sind :—

1	2	3	4	5	6	7	8
Serial No.	Jails.	Number admitted during the year.	Number in column 3 identified as "Habituals" before conviction and classified as such by the convicting Court.	Number in column 3 classified as "Habituals" by the District Magistrate or Magistrate specially empowered (not being the convicting Court).	Number in column 3 classified as "Habituals" by the Jail Superintendent.	Total Habituals admitted.	Ratio per cent. of column 7 to column 3.
1	Common Prison ...	5,658	628	34	14	676	11·9
2	House of Correction ...	351	244	.....	.....	244	69·5

18	Aden ...	185	1	1	7	9	4·9
	Total 1912 ...	18,976	1,876	202	106	2,184	11·5
	„ 1911 ...	16,105	1,430	179	170	1,779	11·0
	„ 1910 ...	15,377	1,390	276	1	1,667	10·8

10. From the information supplied by the Inspector-General of Police it appears that 1,672 persons were identified in the Bombay Presidency inclusive of Sind as compared with 1,481 in the year previous. Out of 1,672 prisoners 129 were identified in Bombay, 334 at Yerávda, 289 in Ahmedabad, 192 in Thána, 195 in Dhulia, 132 in Dhárwár, 104 in Sholápur, 90 in Belgaum, 78 in Bijápur and the rest in the other parts of the Presidency.

Statement No. V—Escapes.

11. The number of escapes during the year under report has been 1 against 11 in the year previous. A prisoner from the Common Prison who was sent to the J. J. Hospital for treatment, made his escape therefrom. This prisoner, while at large committed another offence, was convicted and sent to the Thána Prison where he was identified as a runaway.

Statement No. VI—Offences and Punishments.

12. The statement noted in the margin relates to the offences committed by and the punishments awarded to the convicts confined in the Prisons and First and Second Class Subsidiary Jails. The offences dealt with by Criminal Courts show a decline of one over the figures for the year previous as will be seen from the details given below :—

	1911.	1912.
Section 52, Prisons Act.		
Relating to work	5	5
Indian Penal Code.		
Assaults	.....	5
Escapes	7	.....
Unnatural offence	2	.....
Mischief	.....	1
Murder and attempt to murder	1	.....
Hurt and grievous hurt	.....	2
Attempt to escape	.....	1
Total ...	15	14

13. It will be observed from the following table that the number of offences has fallen from 22,641 to 20,733 or a decrease of 1,908 over the figures for the year previous although the average population in the Prisons to which this statement refers was 8,905 in 1912 as against 8,443 in 1911. With the exception of sub-heads "Relating to prohibited articles" and under major punishments "Relating to assaults, mutiny and escapes," all the sub-heads show a decline :—

	1911.		1912.	
Offences dealt with— By Criminal Courts	15		14	
	Dealt with by minor punishments.	Dealt with by major punishments.	Dealt with by minor punishments.	Dealt with by major punishments.
By Superintendents—				
Relating to work	8,590	3,571	7,322	3,138
Do. prohibited articles ...	1,563	752	1,866	885
Do. assaults, mutiny and escapes	122	274	110	282
All other breaches of prison rules .	5,073	2,696	4,789	2,341
Total ...	15,348	7,293	14,087	6,646

14. The following table shows the nature of punishments awarded during the past two years. It will be seen that the total number of major and minor punishments awarded by the Superintendents during the year under report was 21,088 and the total number of offences 20,733. The difference is due to 355 offences having been dealt with during the year under report by the award of combined punishments. It will also be noticed that fewer major punishments have been awarded in the present year:—

	1911.	1912.
Punishments inflicted—		
By Criminal Courts	15	14
By Superintendents—		
Warnings	3,394	3,506
Penal diet	2,537	2,370
Separate, cellular and solitary confinement	127	138
Hand-cuffing and link fetters	3,942	3,485
Other punishments	5,507	4,750
Total ..	15,505	14,249
Separate, cellular and solitary confinement	327	261
Penal diet with solitary confinement	100	112
Fetters or hand-cuffing behind or to a staple	3,880	3,473
Corporal punishments	86	67
Combination of minor punishments	28	64
Other punishments	3,037	2,848
Total ...	7,458	6,825
Grand Total ...	22,978	21,088

15. Out of 21,088 punishments awarded by the Superintendents of Prisons and Jails 14,249 or 68 per cent. belong to the minor class and 6,825 or 32 per cent. belong to the major. The sub-heads "Warnings" and "Separate, cellular and solitary confinement" under minor punishments show an increase while all other sub-heads show a decline. Under major punishments, the sub-heads "Penal diet with solitary confinement" and "Combination of minor punishments" show an increase while the rest show a decline. The Common Prison and the Prisons of Dhulia, Bijápur, Dhárwár, Ahmedabad, Rájkot, Sukkur and Shikárpur and the Deccan Extramural Prison show an increase while all other prisons show a decline. In the Common Prison, the increase is mainly due to the greater number of admissions into the Prison. In Dhulia Prison, the increase is under relating to work (39) and breaches of Jail rules (169). In the Deccan Convict Gang the increase, which is due to a larger number of admissions and to a few bad characters from other Prisons, is under relating to work (174), prohibited articles (357) and breaches of Jail

rules (367). In the Bijápur Prison the increase is due to a larger population during the year and also to a greater number of punishments for short work and refusing to work (203) and breaches of Jail rules (136)—a great number by habituals who were Kaikadies from the Sholápur District. In the Dhárwár Prison, the increase is due to the greater number of prisoners confined in the Prison as well as to an increase in offences relating to work (393) under a stricter Jailor. In the Ahmedabad Central Prison and the Shikárpur Prison, the increase is mainly due to the increased population. In the Sukkur Prison, the increase is due to exacting proper work (235) from the prisoners and breaches of Jail rules (90). In the Rájkot Prison, the increase is partly due to "Relating to work" (7) and partly to breaches of Jail rules (30).

The most marked decreases are at Yerávda (745), Thána (236), Hyderabad (2,677), Sind Convict Gang (202) and Aden (257). The Superintendent of the Yerávda Prison attributes the decrease to the fact that both Superintendent and Jailor were changed: that convict officers were very carefully selected and the more notoriously obstinate offenders were segregated from the other prisoners. The Superintendent, Hyderabad, attributes the decline to better selection of convict officers and prolonged isolation of bad characters. The decrease in Aden is not explained by the Superintendent.

Out of 20,733 offences, 3,084 habituals were responsible for 7,398 and 4,606 non-habituals for the balance of 12,935 offences. The percentage of habituals is 17·8 calculated on admission rates. The actual percentage to population is probably over 30 per cent. From the above it will be seen that only 7,750 prisoners were punished and the number who actually passed through the Prisons and Jails was 27,892. Very many of these prisoners were only punished once, the punishment frequently being only a warning; 3,506 warnings were actually given. Of the total number of punishments 2,282 were inflicted on Convict Officers for negligence in the discharge of their duties. With the more inexperienced Superintendents there is too much tendency to punish severely for a first offence, I do my best at inspections to correct this error.

16. The subjoined table gives particulars as to the number of stripes inflicted on prisoners in our Prisons during the year under report. It will be seen that although the total number of corporal punishments show a decline of 19 over the figures for the past year, there is an increase in certain Prisons. These are House of Correction, Dhulia, Bijápur, Ratnágiri, Ahmedabad and Karáchi. The three floggings in the House of Correction were all for assaults on warders and convict officers. The 12 corporal punishments at Bijápur were inflicted for the following offences:—

Six for assaulting Prison Officials and fellow convicts (three of these for the disgusting offence of forcing night soil into a prisoner's mouth), four for persistent short work and refusal to work, one for intentionally destroying twist and other raw material and refusing to work, and one for frequently supplying prisoners punished with penal diet with food. Eight were habituals.

In Ratnágiri Prison two were for assaults and two for persistent short work.

In Ahmedabad Prison two were for assaults, four for persistent short work, four for refusing to do any work, one for gross neglect of orders regarding sanitation during an outbreak of cholera, thereby endangering the lives of other prisoners. I enquired carefully into this case and consider the flogging was necessary. Seven were habituals.

In Karáchi Prison five were for assaults, one attempt to escape (2nd time) had been previously removed from mark register, three refusing to work, one doing no work and gross abuse of Jailor, 59 previous punishments. Eight were habituals.

In Dhulia three were for assault and one for gross impertinence to the Superintendent.

There is a satisfactory decline in floggings. Ready resort to this form of punishment is generally the sign of the inexperienced Superintendent. Corporal punishment is absolutely necessary, but it should, as an almost invariable rule, be reserved for assault, mutiny, gross indecency and refusal to work or persistent refusal to give the proper task. In the latter case indeed it is but seldom necessary.

	1	2	3						4	5	6

Total 1911 ...	23,281	22,217	4	16	26	11	29	86	0·4	0·4	...	...

17. During the year under report 8,892 prisoners were fettered as compared with 8,106 during 1911. The increase is due to the increased population and to the rather natural desire of Superintendents and Jailors to prevent escape from extramural work.

REMISSION SYSTEM.

18. It will be seen from the figures appearing in Statement C appended to this report, that 2,686 prisoners were released during the year under remission system as compared with 2,983 in the year previous. The percentage during the year 1912 of those released under remission system to the total number who might have been released under that system, if of average good conduct up to the date of release, was 97·3 against 98·0 in 1911. The practice of mustering prisoners and reading and explaining to them the benefits of the remission rules has been continued. Special awards under rules 514 and 519, remission for committing no offence during the previous 12 months and for doing special work, were granted to 1,149 and to 1,339 prisoners, respectively. The remission system continues to work well.

Statement No. VII—Convict Officers.

19. The average number employed as Prison officers during the year under report in our Prisons and 1st and 2nd Class Subsidiary Jails was 1,024 males and 9 females against 1,026 males and 19 females in the year previous. Nearly every Prison complains of the difficulty in getting good convict officers since the releases on the Delhi Durbar day. As reported last year, I have issued orders to promote prisoners under a year's sentence to convict officers and

the result has been on the whole satisfactory. One great advantage is that the long-term prisoner is taught that if he misbehaves as a convict officer he is not likely to be repromoted.

Statement No. VIII—Diet.

20. The statement noted in the margin shows the different diet scales in Prisons and First and Second Class Subsidiary Jails. These scales have been found to work satisfactorily. Such changes as have been made during the year are noted in the fifth column of this statement.

Statement No. XVII—Undertrial Prisoners.

21. The statistics of undertrial prisoners confined in our Prisons, Jails and Lockups are embodied in the marginally noted statement. The number admitted during year under report shows an increase of 5,753 over the figures for the year previous. The daily average strength has also risen from 1,630 in 1911 to 1,944 in 1912 due to increased admissions.

22. The number of escapes was 19 as compared with 17 in 1911. Of the 19 escapes, 11 took place from the Subsidiary Jails in the Sholápur District—9 Kaikadies breaking out from the Pandharpur Lockup, 3 each from Hyderabad and Lárkána Districts, and one each from Sukkur and Kaira Districts.

23. The number of deaths shows a decrease of 14 over the figures for the year previous. Out of 18 deaths, 3 occurred in our Prisons and 15 in the Third Class Subsidiary Jails and Lockups. Of the 15 deaths, 4 were from Cholera, 2 from Diarrhœa, 2 from Pthisis, 2 from Heart Disease, and one each from Fracture Patella, Dysentery, Small-pox and Puerperal septicæmia and one by committing suicide in the Jámner 3rd Class Subsidiary Jail of the East Khándesh District.

24. The number remaining on 31st December 1912 was 329 males and 11 females in Prisons, 98 males and 13 females in First and Second Class Subsidiary Jails and 1,370 males and 68 females in the Third Class Subsidiary Jails and Lockups, thus making a total of 1,797 males and 92 females.

Civil Prisoners.

25. In the beginning of 1912, there were 40 males in the Civil Jails. The number admitted during the year was 913 males and one female; 907 males and one female were released, thus leaving a balance of 46 males at the close of the year under report. The daily average number has been 50 against 58 in the year previous. The total cost and cost per head have respectively been Rs. 6,245-5-4 and Rs. 124-14-6 during the year under report as against Rs. 5,878-0-11 and Rs. 101-5-6 in the year previous.

FINANCIAL.

Statements Nos. IX and X—Expenditure.

26. The statements noted in the margin deal with the gross expenditure on account of convicted and undertrial prisoners confined in the Central, District and Extramural Prisons and the Subsidiary Jails and Lockups. The cost of Police guards has been omitted as usual, except in the case of the Central Prisons of Yerávda and Ahmedabad and the Special Prison of Thána, where the guarding is undertaken by the Reserved Armed Warder Guard. The realization from the sale proceeds of garden produce has been deducted from the total charges. The gross expenditure during the year 1912 has been Rs. 10,24,380 and the cost per head Rs. 94-6-9 against Rs. 9,87,324 and Rs. 98-0-3 in the year previous.

Establishment.

27. The total cost under this head has risen from Rs. 3,30,319 in 1911 to Rs. 3,35,249, or an increase of Rs. 4,930 in the year under report, but the cost per head has fallen from Rs. 32-12-8 in 1911 to Rs. 30-14-3 in 1912 owing to the increased population. The increase is due to the entertainment of an additional temporary establishment in the Yerávda Prison Press and the grant of bonus to the establishment on account of Delhi Durbar in 1911.

Dietary Charges.

28. The total cost and cost per head under this heading has risen from Rs. 4,32,681 and Rs. 42-15-3 in 1911 to Rs. 4,71,813 and Rs. 43-7-10 in 1912, respectively. The increase is entirely due to the increased population in Prisons as well as in Subsidiary Jails and Lockups and to unfavourable contract rates.

Garden.

29. The value of vegetables and other supplies from the gardens attached to our Prisons and Jails shows an increase of Rs. 624 over the figures for 1911, the figures being Rs. 27,604 against Rs. 26,980 in the year previous. The Prisons of Yerávda, Ratnágiri, Ahmedabad, Karáchi, Hyderabad, Shikárpur and Sind Gang show an increase, while all other Prisons show a decrease. The decrease in Dhulia, Bijápur, Deccan Gang, Dhárwár and Rájkot was mainly due to scarcity of water and unseasonable rainfall. But for the latter factor, Yerávda, Ratnágiri and Ahmedabad would have had better results.

Hospital charges.

30. The total cost and cost per head has fallen from Rs. 37,663 and Rs. 3-11-10 in 1911 to Rs. 35,720 and Rs. 3-4-8 in the year previous. The decrease is mainly due to the non-receipt of the intimations of the adjustment for the supply of medicines to Thána, Deccan Gang, Ahmedabad and Hyderabad Prisons. In the Dhulia Prison, it is due to the adjustment on account of medicines for Rs. 1,174 for 1910 having been made in 1911.

Clothing and Bedding.

31. The expenditure under this heading has fallen from Rs. 49,021 and Rs. 4-13-10 in 1911 to Rs. 43,565 and Rs. 4-7-8 in the year under report. The decrease is mainly due to the fact that the wool was very dear and difficult to get and therefore the sanctioned amount of woollen clothing could not be manufactured in some of the Prisons during the year 1912.

Sanitation charges.

32. The total cost and cost per head have risen from Rs. 21,631 and Rs. 2-2-4 in 1911 to Rs. 25,180 and Rs. 2-5-2 in the year under report. The increase is due to higher water charges for the Yerávda and Karáchi Prisons owing to increased population and to the purchase of disinfectants by the Ahmedabad Central Prison and Deccan Gang, necessitated by the occurrence of Cholera in those Prisons.

Charges for moving prisoners.

33. This head shows a decline of Rs. 2,695, the figures being Rs. 42,735 and Rs. 4-3-11 in 1911 as against Rs. 40,040 and Rs. 3-11-2 in the year under report. The decrease is mainly due to less subsistence allowance and railway fares paid to the released prisoners during the year In 1911 there were heavy charges under this head on account of prisoners released on the occasion of the Delhi Durbar.

Charges for other Miscellaneous Services and Supplies.

34. The total cost and cost per head has fallen from Rs. 15,713 and Rs. 4-3-8 in 1911 to Rs. 15,671 and Rs. 3-9-6 in the year under report. The decrease is very small, *viz.* Rs. 62, and calls for no explanation.

Travelling Allowance, etc.

35. The expenditure under this heading has risen from Rs. 5,089 and and Re. 0-8-1 in 1911 to Rs. 10,545 and Re. 0-15-7 in the year under report. The increase is mainly due to the grant of grain compensation to the low-paid subordinates during the year under report.

Contingencies.

36. The total cost and cost per head has fallen from Rs. 17,614 and Rs. 1-12-0 in 1911 to Rs. 14,190 and Rs. 1-4-11 in the year under report. The decrease is mainly due to the less number of Forms and Books printed and bound for the use of this Department.

Extraordinary charges for Live Stock, Tools and Plant.

37. This head shows a decrease of Rs. 3,899, the figures being Rs. 7,974 and Re. 0-12-8 in 1911 against Rs. 4,075 and Re. 0-6-0 in the year under report. The decline is most marked in the Common Prison and the Prisons of Yerávda, Dhulia, Ahmedabad, Karáchi, Sukkur and Sind Gang owing to less purchases of Dead Stock articles during the year under report.

38. The statement noted in the margin deals with the employment of convicts in our Prisons and First and Second Class Subsidiary Jails. It will be seen that the total number of prisoners sentenced to labour has risen from 8,287 to 8,717 in the year under report. The figures for the First and Second Class Subsidiary Jails show an increase of 7 over the figures for the past year. All the heads with the exception of "Convict Officers" and "Manufactures" show an increase. The number of prisoners employed on extramural works show an increase of 12 over the figures for the past year.

Statement No. XI—Employment of Convicts.

39. The marginally noted statement deals with the net cash earnings of convicts sentenced to labour. The cash earnings have risen from Rs. 1,93,201 in 1911 to Rs. 2,49,623 in the year under report, or an increase of Rs. 56,422. The Yerávda Press contributed to this total Rs. 1,61,749 in the present year and Rs. 1,43,325 in 1911. I deal with this question in detail when considering the work of the Press. His Majesty's Common Prison and the Prisons of Yerávda, Bijápur, Dhárwár, Kárwár, Ahmedabad, Hyderabad and Aden show an increase, while all other Prisons show a decline.

Statement No. XII—Net Cash Earnings.

The large increase in the profits of the Central Prison, Yerávda, is accounted for by a good sale of carpets and daris during the year, reduction in the indent for Europe Stores, no purchase of quinine owing to the large stock on hand, and extramural labour brought in Rs. 700 more than in the previous year. This great improvement reflects credit on the Superintendent and the Jailor and Deputy Jailor.

The increase at Bijápur is due to much greater demand for manufactured articles (during 1911 plague seriously affected the demand), greater sale to Government Departments and carpentry as an industry was successfully introduced. To the Superintendent and Jailor is due the credit for the substantial increase in profits in this small Prison.

At Dhárwár the increase is due to the fact that no raw material in the shape of wood was purchased and that debts were promptly collected. The new Jailor also is a great improvement on his immediate predecessors and his energy and ability initiated more efficient methods.

In the Kárwár Prison there was less raw material and manufactured articles in hand and less outstanding debts at the close of the year.

Ahmedabad. The increase is due to (*a*) the amount of debt due by the prison for 1912 is Rs. 4,039 more than for 1911, (*b*) greater demands on the part of the public for prison-made articles, and (*c*) increased outturn in greatcoats for the Police Department.

Hyderabad. The increase is due to a large population, enhanced rates for canal clearance and the prison was recovering from the difficulties produced by epidemics of cerebro spinal meningitis.

Aden. The increase is due to less raw materials and less manufactured articles on hand due to better demand.

The decline is most marked in His Majesty's House of Correction, and the Prisons of Dhulia, Ratnágiri, Thána, Karáchi and Sukkur and the Sind and Deccan Gangs.

In His Majesty's House of Correction the decline is due to larger balances of raw materials and manufactured articles on hand and outstanding debts due to Prison at the end of the year and also to the fact that the Prison was under reconstruction.

In the Dhulia Prison the decrease in the Factory Profits is due to the following causes :—

This Prison Factory manufactures carpets for the Police Department, and large balances of raw materials (Rs. 2,787), manufactured articles (Rs. 3,360) and outstanding debts (Rs. 2,147) were on hand at the close of the year under report.

In the Thána and Sukkur Prisons the pure Factory Profits are greater than those in 1911. But as in both these Prisons convicts were not employed extramurally in 1912, the cash earnings show a diminution.

In the Karáchi Prison the decline is mainly due to the large balances of raw materials and manufactured articles on hand and also to outstanding debts due to the Prison as well as by the Prison.

40. Of the sum of Rs. 2,49,623 mentioned at the commencement of this paragraph a sum of Rs. 2,32,441 represents the profits of our Prison Factories, Rs. 1,253 of our First and Second Class Subsidiary Jails. The average cash earnings per head of those sentenced to labour and of those employed on manufactures in the case of Prisons and First and Second Class Subsidiary Jails have been Rs. 28-10-0 and Rs. 79-14-0 as against Rs. 23-5-0 and Rs. 61-13-0 in the year previous.

41. During the year under report jail-made articles of the value of Rs. 57,669, as detailed below, were sold to Government Departments against Rs. 64,934 in the year previous. Articles of the value of Rs. 40,210-7-11 were supplied to the Police Department by the Dhulia and Ahmedabad Prisons during the year under report :—

	Rs.
Public Works Department	1,925
Telegraph Department	1,368
Other Civil Departments	51,985
Marine Department	1,628
Military Department	392
Ordnance Department	371

The decrease is due to the fewer articles of Police clothing having been supplied and to the smaller sale of quinine by Yerávda Central Prison during the year explained in paragraph 44 of the report.

Sind Gang.

42. This Gang was located at Ganja Takar near Hyderabad (Sind). With an average population of 636 the Gang shows a loss of Rs. 825 against cash profit of Rs. 28,374 in the year previous. The decline in the profits is due to the non-sale of metal broken. The prisoners were employed on breaking metal throughout the year, to the amount of Rs. 16,871-12-3. Had the metal been sold before the end of the year, the profits would have been Rs. 16,046-12-3. The metal is shortly to be sold and an order for 40 lacs of cubic feet of ballast has been given, which will keep the Gang busy for the next two years. A flying gang of 200 prisoners is at present engaged in clearing out the Imam Wah near Rahuki. The Department sustained a great loss in the untimely death of Assistant Surgeon Mulchand Gangaram who had just taken over the duties of Superintendent of the Gang.

Deccan Gang.

43. This Gang was located at Visápur in the Ahmednagar District throughout the year. With an average of 987 prisoners the Gang has earned Rs. 11,519 against Rs. 12,377 in the year previous. The diminution is due to the construction of a new barrack the cost of which is debited against the Gang. I hope that shortly the work at this Gang may be expedited by improving the methods for carrying earth, etc., and also probably by increasing the strength of the Gang.

Scale of Quinine Packets.

44. The net profit of the quinine industry in the Central Prison of Yerávda and Hyderabad amounted to Rs. 2,791-10-0 during the year under report against Rs. 3,199-10-0 in the year previous. The Yerávda Central Prison shows a profit of Rs. 2,501-11-1 while a sum of Rs. 289-14-11 represents the profits of the Hyderabad Central Prison. The value of Quinine purchased, packing materials, service stamps and establishment charges amounted to Rs. 1,404-10-7 during the year as against Rs. 45,008-5-3 in 1911 and the amount paid into Treasury during the year under report was Rs. 20,434-10-5 as against Rs. 23,894-4-11 in the year previous. The decrease in the Quinine profits is due to the introduction of the Quinine Tabloids issued by the Medical Department under the direction of the Surgeon-General with the Government of Bombay. The demand coincidently for Quinine powders by Police Department, District Local Boards and Municipalities has greatly fallen.

45. In addition to supplying the requirements of this Department, the Yerávda Prison Press has, during the year under report, printed forms for all Government Departments, including Civil Medical forms. The total number of forms, envelopes and books supplied to all Departments was, respectively, 56,977,740, 13,137,400 and 911,837 against 76,199,855, 9,693,081 and 758,595 in the past year. The net profit is Rs. 1,15,749 against Rs. 1,21,478 in the year previous.

46. As pointed out to Government in this office No. 463, dated 17th January 1913, the system on which the profits of the Press have been calculated in the past has been radically unsound. Government have been pleased to sanction the introduction from January 1913 of a system of accounts based on a "Unit Cost". This system has been under trial now for a couple of years and an examination of the outturn of the work by a skilled computor from the office of the Controller of Printing and Stationery has shown that the Yerávda Press is doing work for Government more cheaply than any outside agency would. Mr. Cogswell, the Controller of Printing and Stationery, has also expressed himself as follows:—

> "The results are distinctly creditable to Yerávda and afford full justification (if it were otherwise needed) for the maintenance of the Prison Press."

Every possible item is charged against the Press, everything being treated on a commercial basis. Five per cent. on the total expenditure on buildings, although this is really a rent to Government; depreciation, although the cost of the machine has already been debited against the Press, and full maintenance charges of all convicts employed, although Government would in any case have to pay for their keep. On the introduction of the "Unit Cost System" as the sole method of accounts the so-called profits of the Press will disappear and the outturn of the Press and its cost will be briefly dealt with in this report every year. As in future years the profits of the prisons will therefore *apparently* experience a heavy drop, I propose here to draw a brief comparison between quinquennial periods from 1880 and the year under consideration that Government may clearly see the position of affairs and that in future years there may be a definite figure for comparison.

	Factory profits.	Extramural profits.	Sub-Jail profits.	Press profits.	Total profits.	Remarks.
	Rs.	Rs.	Rs.	Rs.	Rs.	
1880	64,703	1,37,706 (*a*)	3,050	...	2,05,459	(*a*) Ashti Gang—Canal Gokák do. — do. Nara do. — do.
1885	25,275	88,682 (*a*)	1,996	...	1,15,953	Many prisoners were also doing extramural works; Gangs of less than 50 prisoners being employed.
1890	47,631	84,473 (*b*)	2,618	...	1,34,722	(*b*) Deccan Gang—Canal. Nara do. — do. Ravhan do. — do.
1895	49,531	37,083 (*c*)	1,740	...	88,384	(*c*) Deccan Gang. Sind Gang.
1900	47,513	12,781	2,328	18,858	81,480	From this date only these Gangs have been at work and a few prisons—Hyderabad—for instance occasionally do some canal or other extramural work.
1905	43,042	8,731	2,308	64,187	1,11,268	
1910	63,283	27,671	1,423	1,35,548	2,27,925	
1912	70,692	15,929	1,253	1,61,749	2,49,623	

From the above it will be seen that the profits in extramural labour have steadily fallen since 1880. This is due partly to the fact that suitable work was often difficult to obtain: that the earlier death-rates of these gangs could no longer be tolerated; and that both the Deccan Gang and Sind Gang are now largely overflow prisons and specially selected able-bodied men can no longer solely be drafted to these gangs.

Still the progress of the Prisons has not been unsatisfactory. Pure factory profits show a considerable increase—a hopeful sign for the future—although the old weaving and cane and carpet industries at Yerávda suffered heavily

from the inception of the Press. The Press itself, as pointed out above, has been a decided success. The Sind Gang has ample work for the next two years and the work at Visápur will, I anticipate, show better profits and an accelerated rate of progress during the next year.

Statement No. XIII—Net Cost.

47. The statement noted in the margin shows the total cost of maintenance for all Prisons, Subsidiary Jails and Lockups. The total expenditure, excluding charges for inspection and general superintendence, has amounted to Rs. 9,77,898 during the year under report against Rs. 9,38,789 in the year previous. The total cash earnings have been Rs. 2,49,623 against Rs. 1,93,201 in 1911, thus making a net cost to Government of Rs. 7,28,274-14-0 during the year against Rs. 7,45,587-15-0 in the year previous. The average net cost to Government per prisoner has been Rs. 67-2-0 against Rs. 74 in the year previous.

VITAL.

Statement No. XIV—Sickness and Mortality.

48. The statement noted in the margin deals with the sickness and mortality of all classes during the year under report. The following table compares the figures for 1911-1912 of prisoners confined in the Central, District, Special and Extramural Prisons, Subsidiary Jails, Civil Jails and Lockups :—

Year.	Daily average Strength.	Admissions into Hospital.	Daily average sick.	Total number of deaths.	Ratio of deaths per mille.
1911	10,131	4,545	200·1	189	18·7
1912	10,899	5,632	219·1	174	16·0

49. The death-rate for the year is 16·0 against 18·7 last year. Excluding the cases of Cholera, which will be commented on subsequently, the death-rate would have been 13·9. Admissions into Hospital have increased by 1,087 and the average daily sick by 19. The increase in daily average strength would account for about 344 of the increase in the admissions to Hospital; 3rd Class Subsidiary Jails show an increase of 482; the Central Prison, Yerávda, of 254 and the Central Prison, Ahmedabad, of 202. In many districts Cholera and Diarrhœa were prevalent.

Of the 156 prisoners who died in Central Jails and District Prisons, 55 were admitted in bad health, of whom 35 were suffering from the disease which ultimately killed them, 25 were in fair health, the remainder 76 in good health.

50. There have been no cases of plague in Prisons or Jails this year. Wherever necessary, inoculation has been resorted to as a precautionary measure.

51. There has been constant overcrowding in the following Prisons :—His Majesty's Common Prison, Dhárwár, and Sukkur District Prisons, Hyderabad and Ahmedabad Central Prisons, the Sind Gang, and slight overcrowding in Bijápur District Prison. In the District Prison of Karáchi for the last 7 months of the year, the Special Prison, Thána, during May, June and July and amongst undertrials throughout the year, in the Central Prison, Yerávda, from May 1st, in His Majesty's House of Correction from March to July. The excess population in the Common Prison is kept down as far as possible by drafting to the Deccan Gang and other Prisons. In the Sind Gang, Sukkur, Ahmedabad, Hyderabad, Yerávda and Karáchi the excess population slept in tents, verandahs or unused worksheds.

The overcrowding at Yerávda is due to (*a*) in slight degree the abolition of the Sátára and Ahmednagar Subsidiary Jails, (*b*) the transfer of long-term prisoners from Sind, (*c*) the reception of long-term prisoners from Secunderabad—64 in 1912.

The Sind Prisons were generally overcrowded owing to the number of prisoners sentenced under section 123, Criminal Procedure Code.

52. The following Prisons, which show a death-rate of over 15 per mille, are commented on below :—

Thána Special Prison.—29·3 per mille against 25·3 last year. Of the 17 prisoners who died, only 5 were admitted to the Prison in good health. The deaths were due to Dysentery (2); Diarrhœa (5); Tubercle (4); Pneumonia (2), Anæmia (1); Dilatation of heart (1); Acute Bronchitis (1); Brights disease (1). Of the deaths due to Diarrhœa only two were admitted in good health, three were bad, and two of the three in bad health were one 63 and the other 75 years of age. I think all the three fatal cases of tubercle of the lung contracted the disease outside the prison. The general health of the prisoners was good and the number of admissions to hospital small.

Ahmedabad Central Prison.—24·4 per mille contrasted with 12·4 in 1911. The increase is due to an outbreak of Cholera which will be discussed under that head. The deaths were due to Cholera (7); Syphilis (2); Tubercle of lungs (2); Diarrhœa (5); Dysentery (3); Pneumonia (1); Congestion Lungs (1); Sarcoma Thyroid (1) Anæmia (1); Siriasis (1); Fatty heart (1), Malarial Cachexia (1).

The Medical Officer reports that 12 of the casualties had contracted the fatal disease before admission.

Shikárpur Special Prison.—Death-rate 19 per mille against nil in 1911. The deaths were due to Heat Apoplexy (1); Pneumonia (2)—one of these was a man of 60 who was admitted to hospital for the disease two days after he came to the Prison, Pthisis (1) admitted suffering from the complaint of which he died. There were 33 admissions for Malaria—contracted mostly outside the Prison—otherwise the Prison was quite healthy.

Sind Gang.—Death-rate 23·6 per mille as against 38·3 in 1911; of the deaths Pneumonia accounts for (4); Cerebro spinal fever (2); Pleurisy, Rheumatism, Sun-stroke, Cellulitis, Acute Bronchitis, Fatty heart, Syphilis, Malaria and Diarrhœa one each. Pneumonia and respiratory diseases show a great diminution both in admissions and deaths; this is satisfactory.

Rájkot Prison.—Death-rate 39·5 per mille against nil in 1911. The increase is due to a small number of deaths in a small population. Cerebral Hæmorrhage (1); Acute Dysentery (1); Fatty heart (1). The prisoners generally enjoyed excellent health.

Hyderabad Central Prison.—19·2 against 12·9 in 1911; of the deaths 5 are due to Tubercle of the Lungs; 3 to Pneumonia and one each to Suicide, Influenza, Suppuration glands of neck, Cerebral Hæmorrhage, Chronic Dysentery, Heat-stroke, Cerebro spinal meningitis, Empyema, Rheumatism, Fracture of skull, Pernicious Anæmia and Cerebral embolism. Of these, 4 arrived in Prison very ill, being taken into Hospital immediately and died within six weeks of admission or less, namely, Tubercle of Lung (1), Chronic Dysentery (1), Empyema (1), Pernicious Anæmia (2). Another case of Tubercle of the Lungs died of extensive disease of both lungs and the glands of the abdomen within 2½ months of his admission. He had the disease on admission. Pneumonia and other respiratory diseases showed a decrease on 1911.

Deccan Extramural Gang.—The death-rate per mille is 21·3 against 12·2 in 1911. The increase is due to eight deaths from Cholera which will be commented on subsequently. The remaining casualties were due to Pneumonia (5); Dysentery (5); Diarrhœa (1), Gangrene of Lungs (1); Valvular Disease of the heart (1). Pneumonia (20) and Dysentery (88) cases are largely due to chills due to extremes of temperature. The ventilation of the barracks is excellent and it is noteworthy that there have been no cases of Tubercle at the Gang during the year.

Dhulia District Prison.—Death-rate 15·9 per mille against 11·0 in 1911; of the deaths one was due to Cholera, origin not traced, one to Chronic Catarrhal Colitis, the prisoner coming in with the disease and dying in a little over a month; one to Chronic Malaria which the patient, an old man of 60, had contracted before admission; one to Pneumonia admitted in fair health and one to Ulceration intestines admitted in bad health.

His Majesty's House of Correction.—Death-rate 21 per mille againts 21·2 last year; of the deaths three were due to sprue; all these were admitted in indifferent health and probably had suffered from the disease before admission; one to Dysentery and one to Syphilis contracted before admission.

His Majesty's Common Prison.—The death-rate is 16·4 per mille as against 29·1 last year. Considering the buildings, the overcrowding and the miserable state of health of the admissions the death-rate is quite satisfactory; every able-bodied prisoner is drafted to the Deccan Gang. The extraordinary prevalence of Cocaine-eating among the Bombay criminals may be noted here. Out of one batch of 75 prisoners 36 admitted that they took Cocaine in quantities from 6 annas to Rs. 2-8-0 worth daily. Alcohol and Opium are nothing when compared with the evil effects of Cocaine morally and physically.

Of the deaths 3 are debitable to Diarrhœa, of whom one went straight to Hospital on admission, one to Dysentery admitted in an advanced stage of the disease, and one each to Septicæmia, Peritonitis and Pneumonia.

53. The health of Aden nil, Kárwár nil, Dhárwár 2·6; Ratnágiri 8·8; Sukkur 9·3; Karáchi 10·2; Yerávda 10·8 and Bijápur 11·3 has been satisfactory.

54. Plans and estimate for the extension of the Hospital and provision of an operation room at Ahmedabad Central Prison and for a Tubercle ward at Yerávda are ready and I hope that funds may shortly be allotted for these very necessary improvements. The water-supply at Godhra and Sukkur has been improved and in the coming year the District Prison, Bijápur, will, I trust, get at long last a satisfactory supply of water from the new water-supply of that town. The undertrial barrack at Dhárwár is practically completed.

Other improvements are noted under the paragraph dealing with original major works and the expenditure of the Departmental Discretionary Grant.

55. The following methods were adopted during the year under report with a view to improve the health of the prisoners confined in our Prisons and Jails and are inserted here in accordance with the orders contained in paragraph 1 of Government Resolution, Judicial Department, No. 9115, dated 29th December 1896 :—

(1) Issue of wheat and rice in lieu of Bájri and Jowári.

(2) Issue of 2 ounces extra flour and one ounce of molasses to working prisoners in the Deccan Gang. In the Sind Gang this year I reduced the total issue of Bájri and Jowári flour. Issuing instead of 32 ounces of Bájri on Sunday 12 ounces of wheat and 14 ounces of Bájri; on Monday and Thursday wheat 8 ounces, Bájri 14 ounces and molasses 1 ounce; instead of 32 ounces Jowári on Tuesday, wheat 12 ounces and Jowári 14 ounces. The experiment is being carefully watched and so far has not resulted in any detriment to the health of the prisoners and represents a saving of over Rs. 3,000 a year.

(3) Issue of extra rations to weakly prisoners and convalescents.

(4) Issue of Quinine as a prophylactic.

(5) Issue of potatoes and onions in lieu of green vegetables.

(6) Issue of extra warm clothing when considered necessary.

(7) Inoculation by Professor Haffkine's prophylactic serum.

56. Reviewing the health statistics of Subsidiary Jails and Lockups, it will be observed that the population has increased from 67,675 in 1911 to 73,588 in the year under report.

The daily average strength, number of admissions into Hospital and the daily average sick have been respectively 1,841, 1,256 and 24·3 against 1,530, 851 and 16·4 in the year previous. The number of deaths was 18 against 28 in 1911 and the death ratio per mille of average strength has fallen from 18·3 in 1911 to 9·8 in the year under report.

Statement No. XV.

57. The marginally noted statement shows classes chiefly responsible for sick admissions and deaths.

Cholera gives 40 admissions with 16 deaths, but to this must be added 8 cases of so-called Enteritis infectiva, of whom three died. These cases occurred at Yerávda and, though not confirmed bacteriologically, were in the opinion of the Medical Officer, with which I agree, true cases of Cholera.

The Cholera was practically distributed among three prisons. The Central Prison, Ahmedabad, 16 cases and 6 deaths, where it was in all probability fly borne. Cases occurred in the vicinity of the prison and among the warders.

At Yerávda 10 cases and 4 deaths, it may have been fly borne but there is a strong suspicion it was due to a carrier. The Deccan Gang had 19 cases and 8 deaths. Here the cause was probably prisoners drinking water from the river, which they crossed daily to their work, after a late flood in October. Cholera was prevalent in the surrounding district in all three cases.

Dysentery shows an increase of 107 cases and 7 deaths over 1911. The Common Prison gives an increase of 25; Yerávda 5; Dhulia 11; Deccan Gang 24; Bijápur 10; Thána 7; Ahmedabad 25; Hyderabad 5; Shikárpur 8.

Malaria 601 admissions and 4 deaths against 743 admissions and 6 deaths. Two of the four who died were admitted suffering from Malarial Cachexia.

Quinine was given as a prophylactic in 10 grain doses weekly in all Prisons with the following exceptions:—

In Ratnágiri, Bijápur, Aden and Kárwár none was issued, there were no mosquitos and no Malaria.

Sind Gang. All prisoners with enlarged spleens got the quinine thrice weekly throughout the year; other prisoners once weekly from 1st September to close of year.

Karáchi, Hyderabad and Rájkot 10 grains twice weekly.

Dhárwár and House of Correction 10 grains weekly to all prisoners who are admitted with enlarged spleens or who have had an attack of Malaria.

Sukkur 7 grains twice a week and to prisoners with enlarged spleens 10 grains biweekly.

Tubercle shows 51 admissions and 18 deaths against 35 admissions and 15 deaths in 1911. Of the admissions 23 in all probability contracted the disease outside Prison. The tubercle ward at Yerávda, where there were 17 admissions during the year, is urgently required.

Anæmia and Debility account for 80 admissions with 4 deaths against 79 admissions and five deaths in 1911; of the deaths one was of man of 65 admitted in a dying condition; one a man who had attempted to commit suicide outside by cutting his throat and was in wretched health on admission.

Other general diseases show 974 admissions and 23 deaths against 610 admissions and 19 deaths. Deaths were due to Epidemic diarrhœa 3 (in all probability Cholera), Cerebro spinal meningitis 4, Syphilis 5, Scurvy 2, Leprosy 1, Septicæmia 1, Enteric Fever 1, Rheumatism 2, Influenza 1, Tubercle of Bowels 1, Pernicious Anæmia 1.

Pneumonia 61 admissions and 20 deaths as contrasted with 100 admissions and 39 deaths in 1911. Sukkur and the Sind Gang returning 3 cases and no deaths and 12 cases and 4 deaths against 27 admissions and 16 deaths and 24 cases and 11 deaths respectively.

Other respiratory diseases show 216 admissions and 8 deaths against 334 admissions and 12 deaths. Yerávda has only 38 admissions and one death as against 98 admissions and 3 deaths in 1911, the Deccan Gang 4 admissions and one death against 26 admissions and 2 deaths; Hyderabad 30 admissions and 1 death against 45 admissions; Sukkur 0 admission against 14.

Diarrhœa. 371 admissions and 16 deaths against 290 admissions and 9 deaths in 1911. The Common Prison has 29 admissions and 3 deaths against 16 admissions and 2 deaths in 1911; Yerávda 137 admissions and 0 death against 77 admissions and one death; Dhulia 20 admissions and 0 death against

8 admissions and 1 death; Bijápur 52 admissions and 1 death against 20 admissions; Thána shows a considerable fall in admissions but an increase in mortality.

Abscesses, Boils, Ulcers are 516 and 1 death against 336 and no death last year. The increase is due to Yerávda 69, Deccan Gang 21, Ahmedabad 23, Sind Gang 27, Dhárwár 23.

58. Out of the total of 20,614 prisoners who were discharged during the year, 12,755 or in other words 61·9 per cent. gained weight against 55·6 in the year previous; 3,389 or 16·4 per cent. lost weight against 16·3 in 1911 and 4,470 or 21·7 per cent. remained stationary as compared with 28·1 in 1911.

OFFICIAL AND NON-OFFICIAL VISITORS.

59. There were two hundred and sixty-five Official Visitors during the year for our Prisons and First and Second Class Subsidiary Jails. Sixty-nine quarterly meetings were held during the year and all were well attended. Five hundred and forty-five visits were paid by Official Visitors, while one hundred and thirty-one were paid by Non-Official Visitors.

BUILDINGS.

60. The following allotments were sanctioned during the year for original Major Works:—

	Rs.
(1) Certain works at the House of Correction, Bombay ...	25,000
(2) Barracks for undertrial prisoners at Dhárwár	1,400
(3) Certain works connected with the Jail at Aden	1,000
	27,400

Of the above sum Rs. 1,400 and Rs. 1,000 were sanctioned as additional grant for the works already sanctioned last year.

In addition to the above, a sum of Rs. 15,000 was allotted for the discretionary grant, all of which was expended during the year under report. Of this sum Rs. 1,595 were spent in building a contractor's godown at Ahmedabad; Rs. 2,810 in making certain additions and alterations to render the Dhulia Prison more secure; Rs. 3,733 in improving five bathing platforms and for a new staircase in the Yerávda Central Prison; in making certain additions and alterations to the Press Manager's as well as clerks' quarters; Rs. 1,648 in providing wire entanglement for the new undertrial barrack at Dhárwár and strengthening certain doors and windows, etc.; and the balance was expended in numerous petty works.

MISCELLANEOUS REMARKS.

61. During the year 1912, the following Prisons, Gangs, and Subsidiary Jails were inspected by me:—

Central Prisons.	District Prisons.	Subsidiary Jails.	Gangs.
Yerávda.	House of Correction. Common Prison.	Wadhwán.	Deccan Gang.
Ahmedabad.	Rájkot. Kárwár	Godhra.	Sind Gang.
Hyderabad.	Dhulia. Bijápur.	Surat.	
	Dhárwár. Sukkur.	Sholápur.	
	Shikárpur. Karáchi.	Belgaum.	
	Ratnágiri.		

In addition numerous visits were paid to the Central Prison, Yerávda, His Majesty's House of Correction and Common Prison. The Central Prison, Ahmedabad, and the Deccan Gang were also paid flying visits.

62. The increase of pay for warders and the clerical staff of the Prisons is under the sympathetic consideration of Government whose orders are awaited. A proposal as to the pay of Jailors and Deputy Jailors and European warders has also been submitted to Government. This will complete the revision of the pay of the subordinate officers of the Department.

63. The Dhárwár Juvenile Class consisted of 48 prisoners at the close of the year as against 29 at the close of 1911. Their general conduct was good. One youth had to be sent back to the Central Prison, Yerávda, as he was unruly and a bad example to others. Three others were reverted as they would not learn. Of the six prisoners released, employment was found for five in Bombay. One was discharged owing to slackness of work, he had been doing well, two left their employments for no reason, one to proceed to his native place and one to go to Benares for purification, one is employed in a shop by his relatives and is doing well. No prisoners who had been through the class have been reconvicted.

I trust that 1913 will bring brighter prospects for the teaching and reformation of young adults, and indeed all first offenders, through the institution of a Juvenile Jail and the acceptance by the public of their responsibility with regard to released criminals and the recognition of their duty to help those capable of reformation.

This year also a bronze medal was awarded at the Mysore Exhibition for work done by the Juvenile adults.

64. Mr. H. A. Hall, late Superintendent of the Deccan Extramural Gang, received the Imperial service order, and the title of Khán Sáheb was conferred on my Personal Assistant Mr. Kaikhosru Mancherji Clubvala; two most thoroughly well-earned honours which created a genuine feeling of satisfaction and pleasure throughout the whole Department.

65. The results of the year may be briefly summarised as follows :—

The gross cost per head is Rs. 94-6-9 against Rs. 98-0-3 in 1911. The net cost per head Rs. 67-2-0 against Rs. 74 in 1911. The cash earnings Rs. 2,49,623 against Rs. 1,93,201 in 1911. The death-rate 16 against 18·7 in 1911.

66. During the past year with few exceptions my Office Staff worked excellently, and the Head Accountant, Mr. Keshav Narayan Ratnaparkhi, has again discharged his responsible duties to my satisfaction.

I have the honour to be,

Sir,

Your most obedient servant,

J. JACKSON, M.B.,

Lieut.-Colonel, I. M. S.,

Inspector-General of Prisons,

Bombay Presidency.

STATEMENT.

1 lb. bájri or jowári flour, 6 drs. salt and 1 lb. firewood.

Yerávda Central Prison.—The quantity of condiments was reduced to half in the case of European prisoners from the year 1909 on medical grounds. The quantity of condiments reduced to 3 drs. on medical grounds for all other prisoners. Convict Overseers were given meat on Wednesdays along with convict Warders.

Kárwár Prison.—Jowári conjee was changed into Rice conjee during the year.

Ratnágiri Prison.—1 lb. rice is given instead of bájri on every Tuesday and Saturday. Throughout the year. It was also issu on every Monday and Friday since 12th July 1912.

Deccan Convict Gang.—Issue of 2 ozs. extra flour to all working prisoners continued throughout the year. One oz. of molasses issued to every working prisoner excepting those sick prisoners who are on (*d*) diet with the morning conjee.

Bijápur.—Potatoes in lieu of Vegetables and dall. Double quantity of tamarind on dall a ys.

Sind Gang.—Instead of 32 ozs. of bájri on Sunday, 12 ozs. of wheat and 14 oz . of bájri on Monday and Thursday, wheat 8 ozs. bájri 14 ozs. and molasses ½ oz., Tuesday wheat 12 ozs. and Jowari 14 ozs. instead of 2 lbs. Jowári one oz. of Molasses is issued to working prisoners in lieu of 2 ozs. flour on Monday and Thursday.

Wadhwán Jail.—The issue of mutton was stopped from 1st April 1912 and Besan issued in its plac .

(*a*) This scale was in force in all the Subsidiary Jails except Wadhwán in which prisoners up to 2 years' sentence are confined and who are allowed the scales appearing in this statement for Native prisoners in District Prisons.
